

SAFETY DATA SHEET

Page: 1/4

Edition no.: 0

Date: 04/03/2013

TR-COATING

1. IDENTIFICATION OF THE PREPARATION AND COMPANY

Product identifier

Trade Name: Tr-Coating
Identification of the product: Paint

Data identifying the company

TRUCCSA SIGLO XXI S.L.
P.I. Cabezo Beaza C/Budapest, parcela 42-43 Apartado de Correos 2192
30353 Cartagena (Murcia) - Spain
T +34 968 08 10 80
truccsa@truccsa.com

Emergency telephone number: +34 968 08 10 80

2. COMPOSITION – INFORMATION ON COMPONENTS.

Chemical composition

Aqueous dispersion of organic polymers, inorganic pigments and / or organic and inert minerals (silica, calcium carbonate, talc, etc.).

3. HAZARDS IDENTIFICATION OF THE PREPARATION.

None.
Keep out of the reach of children.

4. FIRST AID.

Contact with eyes

Wash thoroughly the affected eyes with plenty of clean fresh water for at least 15 minutes, until the irritation.

Immediately seek expert medical help.

Ingestion

If swallowed, seek medical advice immediately and show the label or container. Keep patient at rest.

Do not induce vomiting due to aspiration hazard.

5 .FIRE.

Flammability of the product

Product is not flammable.

In case of fire to proceed as recommended in the following sections

SAFETY DATA SHEET

Page: 2/4

Edition no.: 0

Date: 04/03/2013

TR-COATING

Recommended extinguishing media

Recommended: alcohol resistant foam, CO₂, dust, water spray.
Do not use for extinguishing: direct water jet.

Special risks

The fire will produce dense black smoke. As a result of combustion or thermal decomposition, hazardous products may be produced: carbon monoxide, carbon dioxide. Exposure to combustion or decomposition products may be harmful to health.
Keep cold water containers exposed to fire. Do not allow fire fighting to enter drains or watercourses.

Fire protection equipment

Depending on magnitude of fire may require the use of protective clothing against heat, breathing apparatus, gloves, goggles or face masks and boots.

Other recommendations

Cool with water tanks, cisterns or containers close to sources of heat or fire. Consider the wind direction. Avoid products used in fire-fighting residue to enter drains, sewers or water courses.

6. MEASURES ACCIDENTAL RELEASE.

Cleaning methods

Collect spill with absorbent material (earth, sand, vermiculite, diatomaceous earth, etc.).
Wash the residue with water collected in closed container.
For subsequent waste disposal, follow the recommendations in section 13.

Precautions for environmental protection

Avoid contamination of drains, surface or groundwater and soil. In case of large spills or when the product contaminates lakes, rivers or sewages, inform appropriate authorities in accordance with local laws.

7. HANDLING AND STORAGE

Handling Precautions

Comply with current legislation on health and safety at work.

General recommendations

Avoid any type of spill or leak. Do not leave open containers.

Conditions to avoid

Heat: Keep away from heat sources.
Light: Avoid direct contact with sunlight.
Humidity: Avoid extreme humidity conditions.
Cold: Keep from freezing.
Maximum storage period: 30 months
Temperature range: 5-35 ° C

8. EXPOSURE CONTROLS - PERSONAL PROTECTION.

Eye protection and face.

Install emergency showers close to the working area.
Glasses: Safety glasses against liquid splashes.
Face shield: No.

SAFETY DATA SHEET

Edition no.: 0

Date: 04/03/2013

TR-COATING

Personal exposure limit values (TLV-TWA, TLV-STEL): None
Element 1..... NONE

9. PHYSICAL AND CHEMICAL PROPERTIES

Technical Information

For technical product information, check your data sheet.

Physical Form: Viscous Liquid

Odor: Slight characteristic

Specific weight: 1.55 ± 0.03 kg / l.

Solubility in water: Miscible

Flash Point: Not applicable.

Volatile organic compounds (VOC): 14.36 g / l.

10. STABILITY AND REACTIVITY.

Stable under recommended storage and handling. (See section 7)

11. TOXICOLOGICAL INFORMATION

No experimental toxicological data available on the preparation.

12. ECOLOGICAL INFORMATION

No experimental ecological data are available on the preparation.

Discharges to ground

Prevent contamination of the ground.

Discharges to water

Do not allow into drains, sewers or water courses.

13. WASTE DISPOSAL

Handling of waste

Take the necessary measures in order to minimize waste production. Analyze possible reevaluation or recycling methods.

Do not discharge into drains or the environment. Dispose of at an authorized point of waste collection.

Waste should be handled and disposed of in accordance with current local / national regulations.

For exposure controls and personal protection measures. (See section 8)

Disposal of empty containers

Empty containers and packaging should be disposed of in accordance with currently local / national regulations.

14. TRANSPORT INFORMATION

International Regulations

SAFETY DATA SHEET

Page: 4/4

Edition no.: 0

Date: 04/03/2013

TR-COATING

Not dangerous for transport.

15. REGULATORY INFORMATION

According to current legislation (see section 16), the formula is labeled as follows:

Symbol

Not subject to identification regulations.

R-phrases

Not applicable.

Phrases S

Not applicable.

16. OTHER INFORMATION

All substances used in our formulations REACH compliant

The information in this safety data sheet of the preparation is based on current knowledge and on current laws of nations and the EU, thus failing to give a guarantee of security in that the working conditions of users are outside of our knowledge and control.

The product should not be used for purposes other than those specified, without first obtaining written handling. It is always the user's responsibility to take appropriate action to comply with the requirements established in the legislation.

The information contained in this SDS is meant as a description of the safety requirements of the preparation and should not be considered as a guarantee of its properties, therefore, corresponds to the user under his sole responsibility to decide whether this information is satisfactory complete and appropriate for their particular use.

Source of information

The information provided in this safety data sheet has been prepared in accordance with current legislation regulating the marketing, Classification, Packaging and Labelling of dangerous substances and preparations. This collection in the following provisions:

Royal Decree 1406/1989 of November 10 published in the BOE of November 20, 1989, by imposing restrictions on the marketing and use of certain dangerous substances and preparations, the annex I has been modified by the Order of December 30, 1993, published in the BOE of January 5, 1994, and the Order of February 1, 1996, published in the BOE of February 7, 1996.

Royal Decree 2216/1985 of October 23, 1985 and amended by Royal Decree 725/1988 of 3 June and the annexes have been updated by the Orders of September 7, 1988, November 29, 1990 and December 9, 1992.

Royal Decree 1078 / 1993 of July 2, published in the BOE of September 9, 1993, whose technical annexes have been updated by the Order of February 20, 1995, published in the BOE of February 23, 1995.

Royal Decree 363/1995 of March 10, 1995, published in the BOE of 5 June 1995 approving the Regulation on notification of new substances and classification, packaging and labeling of dangerous substances.
